

LIGHTWEIGHT TRUCK BUILT FOR ACCESS.

VERSALIFT
BUILT YOUR WAY

VST-55 | ARTICULATED TELESCOPIC | NON-CDL

Big reach is one thing. Actually using it is another. With a lighter build and more usable payload, the VST-55 makes it easier to get into tighter spaces, move efficiently between jobs and get more done with one truck. Using less fuel along the way is pretty nice, too.

BEST-IN-CLASS PAYLOAD

A lighter build leaves more capacity for what matters, like tools, materials and crew. More usable payload, more job-ready capacity and more builds that stay under CDL.

HEAVY-DUTY PLATFORM CONSTRUCTION

Reinforced fiberglass bucket with up to 600 lb capacity, abrasion-resistant liners and forestry-ready options. Built to handle demanding work where standard platforms fall short.

MATERIAL HANDLING FLEXIBILITY

Add the optional jib and winch to turn your truck into a pick-and-place machine. Lift, move and set up to 1000 lbs without bringing in another piece of equipment.

INDUSTRIES

Municipalities | Electric Utilities

SPECIFICATIONS

Horizontal Reach	33 ft 5 in (10.2 m)
Maximum Platform Capacity	600 lbs (272 kg)
Inner Boom Extension	103 in (2.6 m)
Outer / Inner Boom Articulation	-25° to +80°
Lower Boom Articulation	81°
Rotation	360° Continuous

WITH STANDARD PEDESTAL

Height to Bottom of Platform	54 ft 6 in (16.6 m)
Working Height	59 ft 6 in (18.2 m)
Stowed Travel Height	11 ft 1 in (3.4 m)

INSULATION GAP

Upper Boom Fully Retracted	54 in (1.4 m)
Lower Boom	12 in (305 mm)

HYDRAULIC SYSTEM

Operating Pressure	3000 psi (207 bar)
Flow Rate	6 gpm (22.7 lpm)
System Type	Open Center

Note: Specifications on units may vary or change without prior notification due to option selections.
